VC-TABLE Video Conference Table

Model VC-Table Video Conference Table

Designed primarily for the telepresence market, VC-Table brings a clean high-tech look to today's conference rooms. Depending on the specifications and VC system being used, this versatile table can setup as a trapezoidal table or a telepresence suite configuration. It features cable management and custom cutouts for accommodating your electronics grommets/cubby's for easy plugging in of laptops or USB keys and displaying on screen. Its built-in equipment rack can house a codec or PC with ten rack units easily accessible from front and rear. Scratch resistant thermal wrap finish available in many colors. Offered stand-alone or as VFI configured room packages.

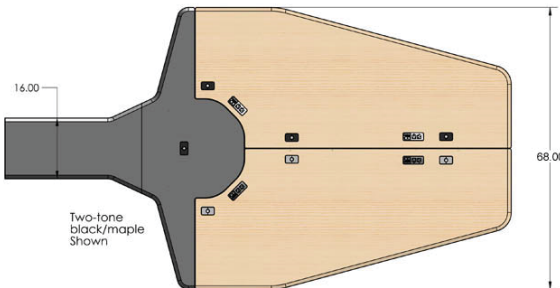

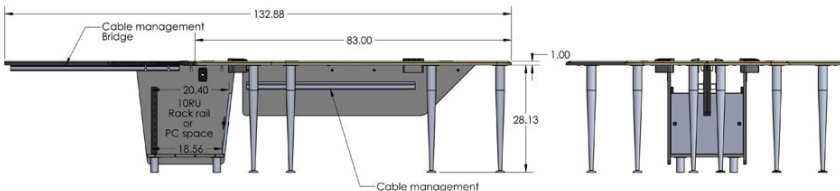

Standard Features Include:

- Can be setup in deep or wide room configuration
- Seats 6-7 depending on setup
- Cable management rails and grommets built in
- Custom cutouts to accommodate your interface requirements
- Built in equipment rack for codec or PC, 10RU with easy access
- Bridge for cable management to room or furniture
- 2 bridges included for different camera distance requirements
- Scratch resistant thermal wrap finish in many colors
- Offered stand-alone or as VFI configured packages
